WORK EXPERIENCE

Tech Mahindra (formerly BORN Group – merged effective March 1, 2023)

Software Engineer

Non 2021 - Present

- Front-End Developer with ~5 years of experience in building responsive and high-performance web applications using **React.js, JavaScript, TypeScript, Redux, and React Hooks**.
- Experienced in **telecommunications domain** and **e-commerce platforms** delivering **user-friendly, cross-browser compatible, and optimized web pages**.
- Skilled in **component development, state management, performance optimization, and testing**
- Experienced in collaborating closely with backend and API teams to integrate RESTful services and deliver end-to-end business solutions.
- Supported **backend integration and development**, gaining hands-on experience with **Java Spring Boot, MySQL**, and API tools like **Postman** and **Swagger** for testing and documentation.
- Strong understanding of Agile methodologies, performance optimization, debugging, testing, and cross-functional team collaboration.

EDUCATION

North Maharashtra University

Bachelor of Engineering

June 2016 - June 2019

C-DAC's Advanced Computing Training School, Pune

Diploma in Advance Computing(DAC)

May 2021 - Sept 2021

PROJECTS

Vodafone Bluemarble

Oct 2022 - Present

- Developed and maintained **reusable React components**, ensuring performance optimization using techniques like **React.memo, useMemo, code splitting, and lazy loading**.
- Implemented **state management** with Redux Toolkit, handling API integrations, asynchronous operations, and side effects efficiently.
- Collaborated with UI/UX designers and backend teams to deliver responsive, cross-browser compatible, and user-friendly web applications.
- Supported the **backend team**, contributing to **Java Spring Boot** and **MySQL** development, and utilized **Postman** and **Swagger** for API testing and documentation.
- Ensured quality through **unit and integration testing (Jest, React Testing Library)** along with **sanity/manual testing** for validating end-to-end functionality.
- Followed **Agile methodology**, actively participating in user story grooming, sprint planning, and task estimation.
- Utilized **Git, Bitbucket, and Jira** for version control, project tracking, and team collaboration.

Walmart

Apr 2022 - Sept 2022

- Migrated and upgraded **Product Detail Pages (PDPs)** from "Blue" to "Glass" version, ensuring alignment with Walmart's design standards and improved user experience.
- Developed PDPs using **HTML, CSS, JavaScript, and jQuery**, updating content, layout, and design with proprietary Walmart tools while maintaining quality and consistency.
- Conducted **cross-browser testing and debugging** to ensure seamless functionality and optimized performance.

SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Frontend: React.js, Redux, React Hooks, HTML5, CSS3, Material UI

Backend: Java, Spring Boot, REST APIs, Microservices

Database: MySQL

Cloud & DevOps: Azure (Exposure), Jenkins, CI/CD Pipelines, Service Deployment, Image Build Process

Tools: Git, Bitbucket, Jira, Postman, Swagger
